Do you want to quickly identify which students need help? 
How early in a term would you like to know that?

Writers show their strengths and struggles long before the final draft. Their engagement in feedback and reflection indicates if they are on track to revise well. Instructors who tune in early can intervene sooner and more effectively.

Eli Review is a peer learning app for revision and feedback that helps instructors coach students’ engagement in write-review-revise cycles. Because Eli’s focus is on formative feedback, the system offers student engagement data relevant to:

- Noticing at-risk students earlier
- Identifying ways to coach students who most need your help
- Finding students who need to be challenged
- Finding students who can help others learn

Eli provides formative information for student success.

In addition to what we provide instantly, we also offer research support for instructors and programs. All data in the system can be exported, either by instructors inside the app or through custom queries, which we provide as part of our data services for institutional subscribers.
